

The logo features a stylized camera lens icon on the left, followed by the text "Smart Access" in a white, sans-serif font, all contained within a dark blue, horizontally-oriented oval.

Smart Access

clarion
moves you • connects you

THIS IS THE SMART ACCESS BY CLARION

Imagine a tool that allows drivers to Tweet, text, update their Facebook page, check tomorrow's weather and get spoken directions to any destination... all while safely keeping their hands on the wheel and their eyes on the road.

DATA BASE

- Clarion Intelligent VOICE™ search
- Applications Optimised for Seamless In-Vehicle Use
- Contents and information constantly updated
- Safe driving

CLARION INTELLIGENT VOICE™

I AM HUNGRY...!

THE INTELLIGENT VOICE FUNCTION IS EXCLUSIVE TO NX504E

CLARION INTELLIGENT VOICE : MASTERING THE MAN-MACHINE INTERFACE

We don't always have a passenger sitting next to us, and we're rarely in the company of someone who knows all the local areas inside out, all the shops and restaurants, tourist sites and emergency services. Intelligent VOICE, on the other hand, is familiar with all of that and a whole lot more, by using Google voice search technology associated with Google Places. Forget the days when the simplest search took forever and you had to laboriously type every word in.

Forget about rudimentary, approximative voice recognition. Intelligent VOICE hears you, even if you don't speak very clearly. Better yet, this single function understands you because the system knows how to interpret the meaning of your request and offers a suitable choice of options.

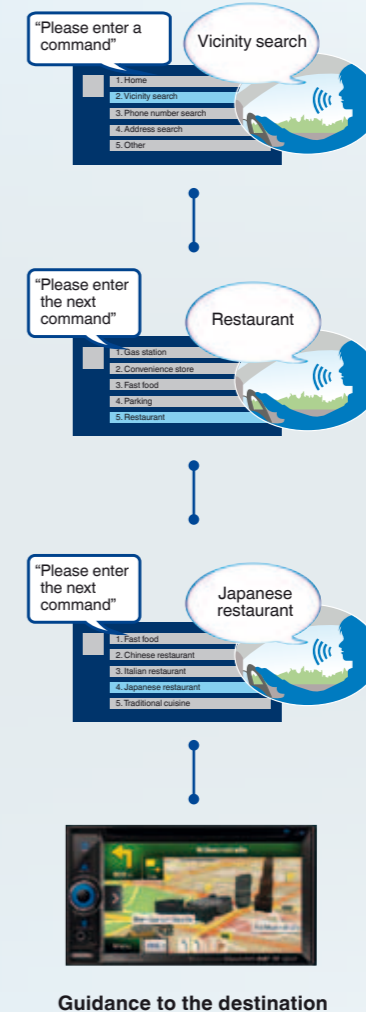

Because safety and comfort go hand in hand, Clarion has also led by example in mastering a leading visual, and now audio, man-machine interface.

SEARCH WITH CLARION INTELLIGENT VOICE™

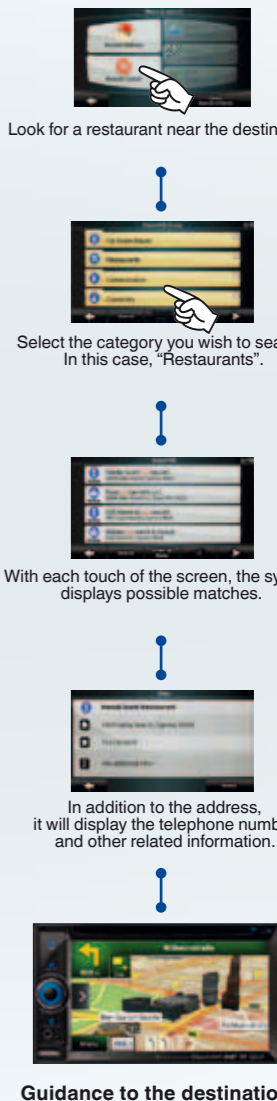

STANDARD SEARCH

Typical voice search

Typical manual input search

If you wish to eat at a location near your destination...

* Guidance to Destination function is activated in the Premium service. The Intelligent VOICE function may not be available in all languages.

SMART ACCESS APPS

Clarion's Smart Access APP provides an increasing number of applications for growing mobility and connectivity.

Information downloads to help with driving, organisation, communication and leisure are permanent guests.

Visit our website

www.clarion.info/smartaccess

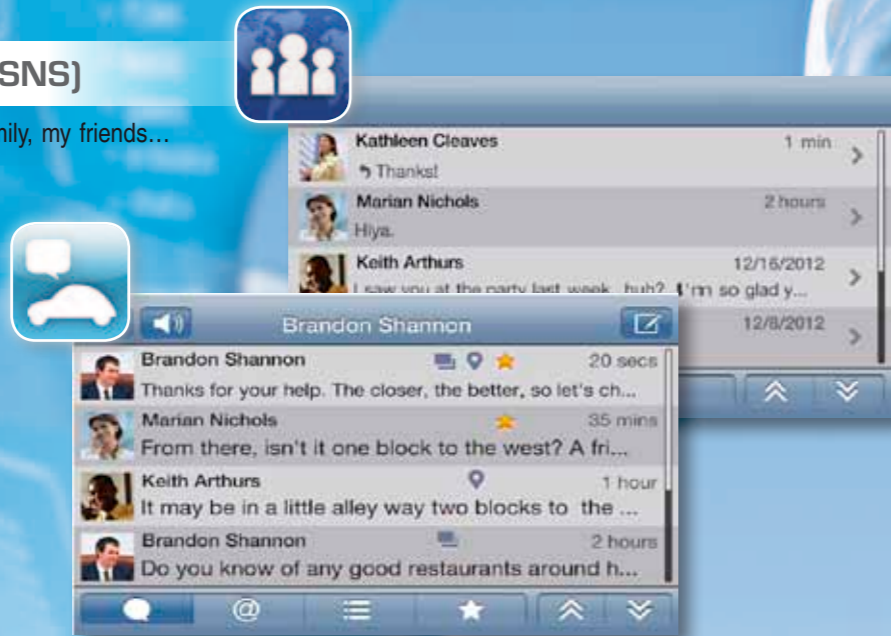

- Get the latest Smart Access information.
- Find regularly updated displays of all available applications and get direct access to related web pages on AppStore or Google Play.

- Check the compatibility of your smartphone.
- Find out how to connect your phone.

SOCIAL NETWORKS (SNS)

I like to keep in touch. With my family, my friends... Share good times and photos.

Facebook or Twitter in the car? Today, it's possible... I'm no longer alone.

INFORMATION

It's been a long time since I've had a paper diary. My computer is in my bag and my phone's buried in my pocket. How can I check my schedule?

Nothing could be easier: Calendar4car displays my schedule directly on my Smart Access station.

How can I check the weather? Weather4car is here...

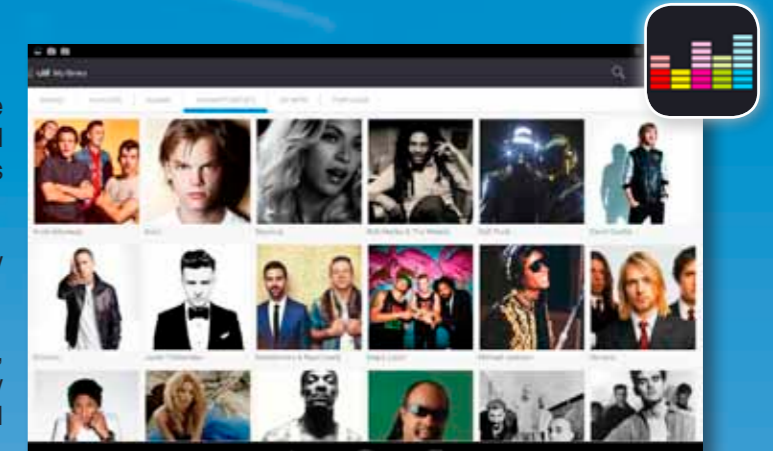

And if I want news? News4car

MUSIC

The Cloud provides all that's music to my ears, right where I am... I don't want to deprive myself of this wealth and pleasure while I'm driving. What's more, I want to share this experience with my friends, and passengers.

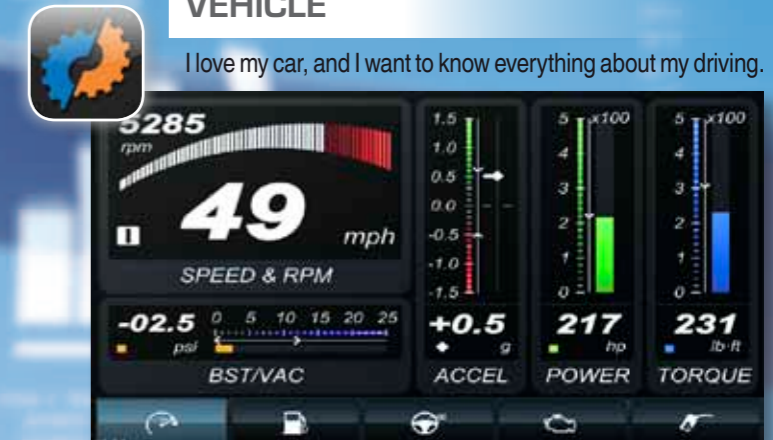

Desire becomes reality, I can allow myself to be carried away by the sound...

Thanks to unrivalled applications such as Deezer on Android, I can now choose from millions of tracks. However long my journey is, I know I'll get entertainment perfection any time I want it.

VEHICLE

I love my car, and I want to know everything about my driving.

NAVIGATION / POI / TRAFFIC INFO

I need to cut down on my journey times and be a safer driver. Thanks to smartphones, more and more information is available, such as traffic updates and directions. But however vital this information may be, it could be dangerous to consult it while driving.

Smart Access provides the answer to this dilemma. Drive, look ahead, be informed, be guided... in complete safety.

NX504E

NX504E

NX504E

2-DIN DVD MULTIMEDIA STATION WITH BUILT-IN NAVIGATION/SMART ACCESS

Enjoy the music, videos and apps from your smartphone through the NX504E large touch screen.

Intelligent VOICE powered by Google

Find destinations just by talking, based on Google™ voice recognition technology information.

Smartphone applications optimised for in-car use integrate your car with the latest information.

Built-in Navigation with 8GB microSD card covering 46 European countries. The intelligent navigation features provide enhanced guidance support.

Intelligent Tune

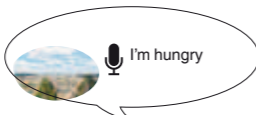

Intelligent Tune
"Vocal image control technology"

"Intelligent Tune" Clarion's exclusive sound technology

Featuring Clarion's sound technology developed to turn the car interior into an excellent listening environment. Includes Vocal Image Control to move the vocals to a specific seat in the car, Sound Restorer for full quality sound reproduction of compressed audio data, Virtual Bass for powerful bass without subwoofer, and other exciting sound technologies.

Searching couldn't be simpler

Just say what's on your mind, like "I'm hungry," and it searches for you. Clarion Intelligent VOICE™ utilises voice recognition technology and local search information to find what you're looking for. Think out loud, and the system searches for a destination that meets your needs. Gone are the days of word-based search leading to lots of false hits. Clarion Intelligent VOICE™ understands your meaning, making it genuinely simple.

DAB+

Digital Audio Broadcasting

Built-in DAB (Digital Audio Broadcasting)

DAB broadcasts radio programmes via a digital signal and offers CD-quality audio. Compared to analogue, DAB's digital signals offer a purer signal with reduced fading and multipath effects, less affected by weather, multipath and interference.

Smartphone connectivity for seamless enjoyment of your favourite music and videos

728 variable-colour key illumination for the ultimate look for your car.

Vocal Image

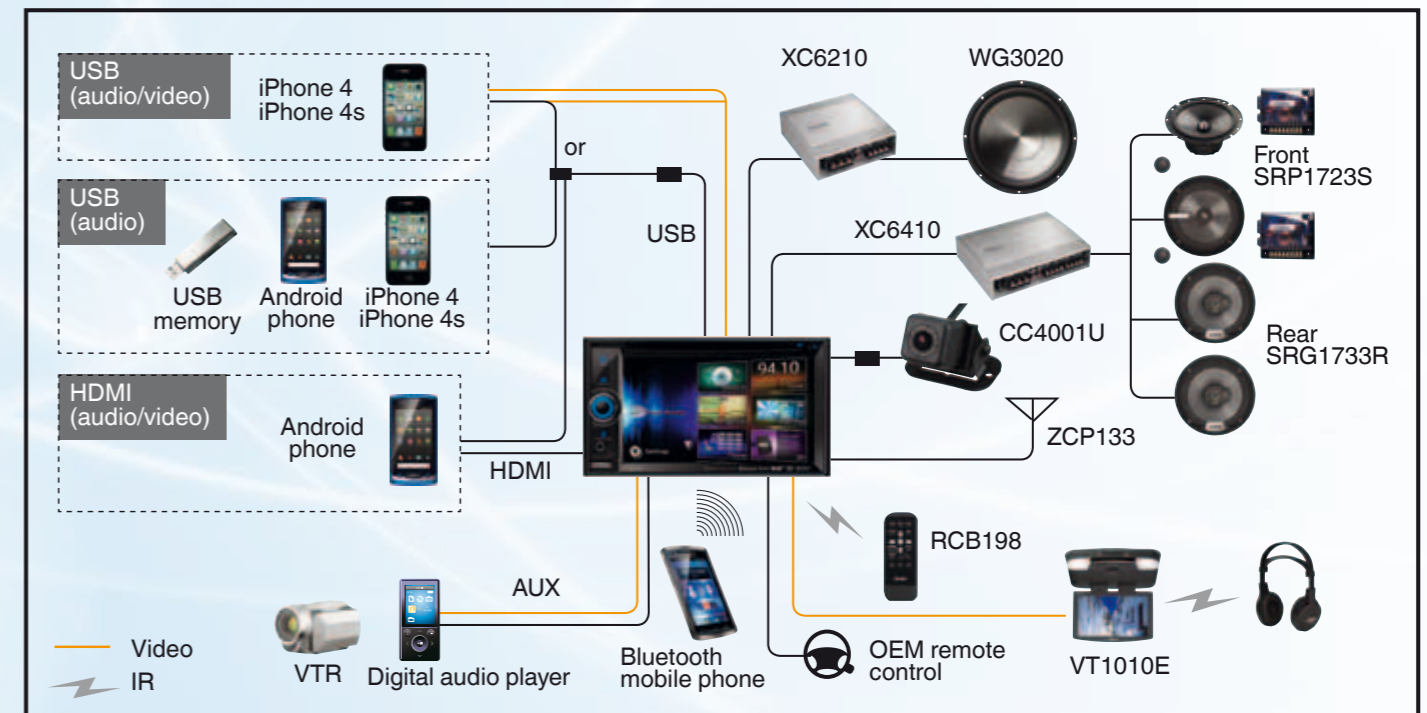

Interactive GUI with flick operation

"Intelligent Tune" Vocal Image Control technology

NX504E-SYSTEM EXAMPLE
