1

Turn the air ventilation shafts **upwards**. Remove the two screws.

Turn the air ventilation shafts **downwards**. Notice that two clips have become visible. Gently push them downwards. Gently pull the ventilation shaft towards you.

2

Remove the plastic trim around the gear lever. And remove the ashtray.

3

Pull the the dashboard towards you. At the location of the arrows there are clips which holds the dashboard in place.

4

Remove the original radio.

5

Place the replacement panel. Place the 2-Din metal bracket.

6

Place the headunit and radio trim. Replace all the panels.

Connect all of the needed wiring harnesses and check the connections carefully.
