

All-in-one multimedia and navigation

NX702E

2-DIN DVD MULTIMEDIA STATION WITH BUILT-IN NAVIGATION & 7-INCH HIGH RESOLUTION DISPLAY

Please find more information about NX702E

728 variable-colour key illumination for just the right look for your car

Motorised sloping console & disc slot

Smooth flicking operation

Interactive GUI with flick operation

The NX702E's touch screen GUI (Graphical User Interface) supports flick operation, so you can quickly scroll to another menu page. Feature icons are animated for an enhanced appearance, they can be dragged and dropped into different positions to customise the screen.

Parrot Bluetooth® for hands-free communication, access to phonebook and audio streaming

Built-in Parrot Bluetooth provides hands-free telephone communication, with comprehensive compatibility with a variety of mobile phones. With a built-in microphone and Phonebook access, you can safely talk and drive at the same time. Play music stored on your mobile phone with Bluetooth audio streaming.

* Dependent on mobile phone.
* Please see our website for details of compatible Bluetooth mobile phones.

Made for iPod® and Made for iPhone® for seamless integration

Made for iPod and Made for iPhone certified, so you can enjoy the convenience of iPod/iPhone ABC Search to quickly access tunes, and simple control mode to allow operation using the iPod/iPhone controls. Album Artwork is displayed to visually enhance interactivity.

Built-in DVB-T (Digital Video Broadcasting – Terrestrial)

For TV entertainment in your car that's crystal clear and rock solid, NX702E is equipped with a built-in tuner for DVB-T reception. Less susceptible to noise interference than analogue TV broadcasting, DVB-T broadcasts will let you fill your drive with audiovisual entertainment — especially enjoyable for your passengers during long trips. And since it's built-in, there's nothing extra to buy!

Advanced settings create the ideal listening environment

Digital time alignment

Digital time alignment with 3-way crossover

Digital Time Alignment assures that the sound from each speaker reaches the listener at the same time for perfect sonic imaging. The 3-way crossover separates the sound into different bands to match each speaker's output range.

2-zone entertainment

Allows rear seat passengers to enjoy a DVD movie or iPod Video while the front seat passengers enjoy their favorite radio station or music from a USB memory device.

Beat EQ Plus for user customisable sound

In addition to providing 4 preset equalisation patterns — BASS BOOST, IMPACT and EXCITE — Clarion's Beat EQ Plus allows you freedom to customise each pattern by dividing the sound spectrum into 5 bands. You can finely adjust the sound to your liking, depending on the genre of music, for a more fulfilling listening experience.

Navigate your way with an enhanced sense of reality

Smart, simple and direct control on touch-panel display

Intelligent Navigation

Rich POI database

Night Mode

Sophisticated and efficient navigation graphics

Highway mode

Signpost information

Elevation modelling and 3D rendering for a realistic view

Green Route

Terrain modelling in 3D
