Multimedia

Movies, Music, Information... All at your fingertips

The Multimedia Station type flagship model has now expanded to transform your car into a full-scale entertainment environment. Its wide range of functions includes 5.1-channel surround sound compatibility and 2-Zone system, highly efficient high-speed operation processing and the capacity for future upgrades that responds to current- and future-oriented driver’s needs. This all-in-one model supports a wide range of media, including DVD-video, music and video CDs, MP3 data recorded on CD-R/RW discs and even iPod® control, providing many useful functions within one neat, compact body. Take a closer look at the new 2006 Clarion lineup, you’ll see, hear, feel the difference and find the model that perfectly suits your own unique multimedia sense of style.

The concept of rear entertainment redefining the next-generation in-car environment
Most people want to add more excitement to long drives with family or friends, instead of feeling like they are just moving from one place to the next. But not all of the passengers want to listen to the same music. However, if each of the passengers could enjoy their favourite contents throughout the trip, the entire driving scene would be much more pleasurable. By separating the interior of the car into the front seat space and back seat space, and by using a 2-Zone system that can play back separate audio or visual sources independently from each other, it is possible to create an entirely new in-car environment that until now has only been a dream. So while the front seat passengers are listening to their favourite CD or watching a DVD, the back seat passengers can be absorbed in a video game, making it possible to create two completely different audio-visual areas within the same car. Starting with its 2-Zone system that embodies the concept of rear entertainment, Clarion has a lineup of products that respond to the widest variety of user needs, including an overhead monitor perfect for mini-vans, or compact monitor models for the headrests.

Infinite possibilities of musical style starting from your car
You can now enjoy music recorded on your iPod in whatever driving scene. There are no doubts that musical style is now seamless. Track names are displayed unchanged from the iPod, and main operations can be performed from the touch panel. What’s more, the iPod batteries are charged automatically simply by connecting it to the unit, which means you can continue to listen to your favourite tunes for as long as you like, without having to worry about the amount of battery life you have left. Clarion brings you the combination and versatility of a wide range of media such as DVD, CD and iPod, truly expanding and freeing your musical enjoyment.

Striking, vivid image experience that will revolutionise conventional driving
High definition overhead monitor reproduces strikingly clear images from condensed image sources such as DVD video, without losing any of the original quality. In addition, the 5.1-channel surround sound system splits and reproduces Dolby Digital, dts and other theatrical sounds through individual speakers, creating a powerful and exciting movie theatre style surround sound experience. This combination of dynamic images and realistic crystal clear sound with the simple, smooth usability of highly advanced functions creates an astounding entertainment environment inside the vehicle, which can easily match any home theatre system.

Multimedia

In-dash AV Multimedia Station compatible with a wide range of media, creating a flexible and expandable system, has realised true in-car entertainment.

The VRX766VD demonstrates the maximum performance available within the limited space inside a vehicle. It delivers powerful images and sounds despite its compact size. And with wide versatility that provides opportunities for future system expansion, such as the ability to upgrade to 5.1-channel surround sound or 2-Zone system technology, the VRX766VD provides an excellent core that supports a wide range of extendability and future potential. Clarion’s flagship model VRX766VD embodies our ideal of an AV Multimedia Station. High-definition, high-luminance wide switch monitor, and a wide range of supported media multiplayr playback such as DVD-videos, Video CD, music CD and MP3 are all neatly fitted into the 1DIN-size body. On top of its high performance, its compact size. And with wide versatility that provides opportunities for future system expansion, such as the ability to upgrade to 5.1-channel surround sound or 2-Zone system technology, the VRX766VD provides an excellent core that supports a wide range of extendability and future potential. Clarion’s flagship model VRX766VD embodies our ideal of an AV Multimedia Station.

5.1-channel Dolby Digital±surround sound
First there was home theatre, now there’s road theatre.
5.1-channel surround sound is a must for home entertainment today. Now you can enjoy it in your car as well. Dolby Digital and its provide an incredibly realistic sound environment with six channels of sound in front of you (left, right and centre) together with two more behind you, plus a dedicated low-frequency sub-woofer channel that makes the sound larger than life. It all combines to produce a dynamic cinematic loud sound field even with a relatively small speaker or your vehicle’s interior. So turn your next road trip into a road show with Clarion’s high-performance cinema sound.

VRX766VD DVD MULTIMEDIA STATION WITH TOUCH PANEL CONTROL

- iPod direct connection and control

The iPod control comes in 2006, as we allow you to “Podify” your in-car experience with a new, easy-to-use interface. Compatible with all first-generation and newer iPods, the interface makes accessing your iTunes collection as easy as fast-forwarding and reverse tracking a CD. This convenient solution also charges your iPod so it’s ready to go once it leaves the vehicle.

But you have more: not only audio, but also video can be enjoyed. Clarion is proud to be the first manufacturer to provide such video management.

Audiophile-Grade 50-Watt, 6-Channel Amplifier

It all combines to produce a dynamic cinematic loud sound field even with a relatively small speaker or your vehicle’s interior. So turn your next road trip into a road show with Clarion’s high-performance cinema sound.

For more information on VRX935VD, visit our website at www.clarion.com.
The reality only high-definition can provide; the intensity only a big screen monitor can provide. Overwhelming sound and powerful expression of the 5.1-channel surround sound system fully realizes the near infinite world of home theatre. Furthermore, the 2-Zone system allows the front seat and back seat spaces to be separated, and for separate audio or visual sources to be played back independently and simultaneously in these zones. Control over this overwhelming performance can be easily mastered using the smart touch operation and highly operable L-shaped button layout. And when it is installed into the console, it blends in with the look of your vehicle so smoothly that you would think it was the 2-DIN main module designed specifically for your car. With the addition of compatibility with new types of media including iPod® control, and with the feeling of fingertip control over all of the functions, you can immediately appreciate the extra touch of elegant status that only the MAX667VD can provide.

7-inch wide monitor with touch-panel and smart-touch operation
The menu screen layout has been arranged to achieve beautiful graphics and clear visibility. The 7-inch wide monitor is also equipped with a touch-panel for fingertip control of all functions. High-expression operation is made possible thanks to the excellent matching of the touch panel. The touch panel has been incorporated which enables the management and simple operation of high-performance operations. By operating the easy-to-understand layout and making use touch control, it is possible to manipulate high-performance operations with the simplest one-touch control.

5-channel entertainment
When you watch a film or concert on DVD, it seems so lifelike that you can almost feel the heat from a concert hall, or experience the floating sensation or battle scenes in the movie. The 5.1-channel surround sound system lets you experience three-dimensional sound, making you feel as if you were standing in the DVD world. The scale effect created by sound being delivered from the left, right, and rear speakers creates a sense of realism worthy of the name “Car Theatre”.

2-Zone entertainment
Clarion’s 2-Zone entertainment feature offers SUV and mini van owners more flexibility when it comes to their mobile entertainment system. Now, owners of Clarion’s MAX667VD get more front-seat listening options while rear-seat passengers watch and listen to a DVD or VHS movie via wireless headphones. So, plug in an iPod, listen to a CD, or any CeNET-equipped audio source. This is versatility where you need it most in the car.

Enjoyment of a wide variety of media
All of the different possibilities of in-car entertainment, rolled into one unit. DVD lets you enjoy a variety of visual content such as movies, special programming and live concerts. And to maximize your musical enjoyment, it supports MP3/WMA data burned to CD-RW/R in addition to conventional music CD and video CD. And of course, it features iPod control through a fully integrated touch screen interface. Multimedia compatibility assures maximum pleasure.
Easily bring DVD into the centre of your car entertainment

A 5.1-channel surround decoder is built-in to produce true-to-life, three-dimensional sound in your car that literally wraps around you. What’s more, this unit is also equipped with a 4x52W high-power amplifier using MOS-FET technology known for its superiority as an audio device, as well as a 24-bit D/A converter. It’s the DVD/CD/VCD/MP3/WMA receiver that goes beyond the performance you need for high quality enjoyment of images and sound.

VXZ766
DVD/CD/VCD/MP3/WMA RECEIVER/CeNET CONTROL

- 2-Zone entertainment: front and rear separate source control

*There is no guarantee that all units in this catalogue play CCCD (Copy Control CD), Hybrid SACD (Super Audio CD), CD-R/RW and DVD±R/RW.

Built-in 5.1-channel decoder

Needless to say, 5.1-channel surround sound is a must for home theatre system today. Almost all DVD software is now encoded in the Dolby Digital or dts format, with incredible surround sound effect. VXZ766 features built-in 5.1-channel decoder, that works with the internal 4-channel amplifier. All you need to do is hook up 4 speakers − front L/R and rear L/R − SRK602 centre speaker and an active subwoofer, then your vehicle literally becomes a mobile theatre.

Internal DVD player

Plays DVDs, which rich, realistic images and a sound quality that easily outperforms your CDs. By adding a rear monitor and using the existing monitor, you can enjoy new movies, dramas and concerts inside your car. Also plays CD-Rs and MP3/WMA disc files. This is all you need to enhance and spice up your audio/video entertainment space.

Z-Enhancer Plus: (2-band EQ) for customised sound reproduction

Whether you want to emphasise the bass, or select a setting that provides more impact, Clarion’s Z-Enhancer Plus offers three preset EQ patterns: Bass Boost, Impact, and Excite. Users can also select Custom 1. Clarion’s 2-band Parametric EQ. In this mode, you can adjust the gain, Q and frequency of each band for a customised sound.

Magna Bass EX

Compared to conventional loudness features which boost the low frequency range of 100 Hz, Magna Bass boosts the ultra-low frequency range with a centre frequency of around 60 Hz. For additional bass response, Clarion has added Magna Bass EX, which goes beyond Magna Bass by boosting the ultra-low frequency range around 60 Hz. This feature also reduces noise thanks to its automatic compensation function, which produces well-balanced, dynamic bass sound no matter how loud you play the music.

VXZ756

System Example
Meet the largest in-dash screen in history!

Clarion achieves the world’s first wide 8-inch display in an in-dash TV monitor by adopting the Trinity Motion System. It’s the sleek in-dash TV monitor that provides unprecedented presence and visibility based on a new way of thinking.

**Trinity Motion System**

By adopting this drive system, it was possible to achieve a wide 8-inch screen for the first time, surpassing the upper limit of previous in-dash TV monitors. So even in situations where you cannot install a large-screen on-dash monitor unit, or where there is only 1-DIN space available, you can experience passing the upper limit of previous in-dash TV monitors. So even in situations where you cannot install a large-screen on-dash monitor unit, or where there is only 1-DIN space available, you can experience

This wide 8-inch display breaks through previous notions of in-dash monitors. Its large image with high resolution and superior visibility offers excellent results for DVD viewing, such as movies and concerts, as well as TV viewing. By connecting the DVD main unit VXZ766 or DVD changer VCZ625, as well as TV viewing, a floating car entertainment environment can be easily created.

**Tilt & slide mechanism**

Equipped with a tilt & slide mechanism that allows the monitor’s angle to be adjusted to offer maximum visibility for the driver or passenger. What’s more, it also has a function to extend the monitor horizontally for a certain amount of time to allow access to air conditioner controls.

**Wide 8-inch display**

The wide 8-inch display breaks through previous notions of in-dash monitors. Its large image with high resolution and superior visibility offers excellent results for DVD viewing, such as movies and concerts, as well as TV viewing. By connecting the DVD main unit VXZ766 or DVD changer VCZ625, as well as TV viewing, a floating car entertainment environment can be easily created.

**Multi12 or 8 screen channel selection function**

Programmes being broadcast can be checked on the multi-screen with its grid of 12 or 8 sub-screens, allowing quick selection of the channel you wish to view. Since you don’t need to flip through channels to check what’s on, you can enjoy a much more efficient way of TV viewing.

**TB851P PAL/ TB853W NTSC**

Power and presence to turn your car interior into a movie theatre or concert hall

5.1ch Dolby Digital/dts Surround
Dolby Digital and dts provide three channels of front sound (Left, Right, Centre), together with two rear surround sound audio channels (Left, Right) and a dedicated subwoofer channel for a subwoofer. This combination can reproduce the dynamic sound field of a movie theatre or concert hall in a relatively small space. So take the show on the road; let Clarion bring full 5.1ch performance into your car.
Give your rear-seat passengers first-class entertainment

A rear-seat entertainment system is the perfect remedy for those long road trips. Offering the latest LCD technology, Clarion’s rear-seat video line offers several key features, including built-in DVD players, external Game Ports, widescreen viewing, and more. So take the show on the road with Clarion’s rear-seat entertainment line.

**High-luminosity LCD monitors for an extremely realistic display of all visual sources**

**2-Zone and Split Screen entertainment**

Clarion’s split screen and picture in picture technologies can keep the whole family happy. Now the kids can play video games and watch a DVD movie at the same time. And, thanks to dual IR output technology, wireless head phones provide the ideal solution to dual-zone entertainment and family disagreements.

**ACCESSORIES**

- **MS5430** MULTIZONE AUDIO/VIDEO SWITCHER
  - 5 control station and mounting bracket included
  - Auto level gain control (Multizone switching of 4 A/V sources with up to 5 DVD players, 2 A/V sources with up to 9 DVD players)
  - 3 RCA A/V inputs • 3 RCA A/V outputs • Front panel controls for source, power and picture
  - Dimensions: 161(W) x 115(H) x 29 (D) mm

- **VA700** VIDEO DISTRIBUTION AMPLIFIER
  - 1 gain control • 1 RCA video input • 7 buffered 7.5 ohm RCA video outputs • Stable video signal for up to 7 LCD monitors

- **FM200** FM MODULATOR
  - 2 ch RCA audio input • On/Off switch • Volume level control • FM reception frequency: 88.7MHz/89.1MHz

- **WH143/WH143H/WH253H** WIRELESS HEADPHONE SYSTEMS
  - WH143H: IR wireless single headphones
  - WH253H: Dual channel IR wireless single headphones

**Multi-Zone System**

Clarion’s MSS430 multi-zone “Source Commander” is an advanced audio and video switcher with a built-in video amplifier for exceptional video signal up to three monitors using Composite Video inputs. It can accept up to 4 different video sources (such as DVD, Portable Media, Video Game and Rear View Camera) and send any combination of the source inputs to each of the three zones independently. Each zone contains a Composite Video output for a monitor and 2-channel RCA outputs for headphones or a zone amplifier/processor. This configuration is ideal for traditional candidates like SUVs and large sedans, but the possible applications extend to recreational vehicles, travel coaches, limousines and ultra high-end executive vehicles. Clarion has the necessary support items like WH143H / WH253H wireless headphones, several LCD monitor choices and even FM modulators. Clarion multimedia is the future.

**VMA763** 7” WIDE-SCREEN HEADREST LCD MONITOR
