Subject:	VRX610 & DVS9755z - Using internal power		

Description: Using the internal power of the VRX610 with the DVS9755z.

Solution: Use a CCA-389 cable from the back of the VRX610 to the FRONT audio output and the VIDEO output of the DVS9755z.

Program the DVS9755z as followed:

Press ADJUST then the right arrow to read SP-SEL (speaker select) then ENT.
Press rt. arrow then ENT, CTR-SP, then down arrow to turn off center channel output.
Press rt. arrow then ENT, SRD-SP, then down arrow to turn off rear speaker output.
Press rt. arrow then ENT, SUB-WF, then down arrow to turn off subwoofer output.
Press ENT to save these changes.

Note: The DVS9755z must be in Master mode or you will not get any audio output.
