Category:	Source Units	Date:	5/22/01
Subject:	MONSOON & CAVW2 CD Changer Translator		

Description:

CAVW2 with a RED DOT on the packaging and with only one black wire coming out of it is the correct piece. This one is compatible all VW MONSOON systems.

We had a few sent out that had two wires coming out of it. One Yellow and one Black. These units will not work with the MONSOON systems but will work with NON-MONSOON systems.
