

Product Bulletin

Category:

Source Units

Date:

July 3, 2003

Subject:

DXZ925 and DXZ935

Description:

Accessing the Bass and Treble menu.

- 1) Press the "PLII" button until the display reads "PLII OFF."
- 2) Press and hold the "ADJ" for 2 seconds.
- 3) Press the right tuning arrow until "AC-PII SEL" is displayed on the screen.
- 4) Press the "ENT" button. "AC-PII" will come up on the display.
- 5) Turn the rotary volume control knob to the right for Standard mode.
- 6) Press the "ADJ" button to save change.
- 7) Press the "EQ" button; "Bass" will come up on the display. Use the rotary volume control knob to raise or lower the setting. Press the "EQ" button again to access the "Treble" and the rotary volume control knob to raise or lower the setting.
