For over 75 years, one thing has remained consistent when it comes to Clarion, and that’s our drive for innovation. Since developing Japan’s very first car radio in 1951, we have introduced countless breakthrough technologies and innovative products that have helped shape the industry’s direction and consumers’ expectations.

For decades upon decades, many of Clarion’s benchmark technologies have been adopted by top auto manufacturers across the globe. Today, Clarion is one of the leading sources for delivering cloud-based in-vehicle infotainment and safety solutions including products that feature connectivity platforms, apps, special content and real-time information monitoring and analysis. Clarion has also retained its global position as the gold standard when it comes to traditional audio, multimedia and navigation technologies and products while enhancing the overall user experience by incorporating full smartphone integration throughout the product lineup.

We expect the next 75+ years to be as exciting and innovative. No matter how fast technology evolves, we will be there to deliver cutting edge in-vehicle solutions and products with our legendary attention to performance, convenience, reliability, durability, safety and security. Rely on Clarion for all your automotive infotainment and connectivity needs and rest assured that catering to the needs of your mobile lifestyle is one of our top priorities both today and tomorrow.

Innovation Is at The Heart of Everything We Do

At the Leading Edge: From Japan to the World

Clarion has been creating world-class in-vehicle technology since 1940. Our track record includes several revolutionary “firsts” for Japan and the World. These products set the evolution of car entertainment into high gear. Based on our past and present, the future is bright!

Introducing the 2016 Product Lineup

Clarion’s 2016 product lineup is designed to bring you the finest technology in the industry. From our flagship multimedia system featuring high resolution audio to our powerful amps, speakers and vision assist cameras, Clarion delivers extraordinary performance, reliability, connectivity and superior user interface. Join us on the journey of in-vehicle connectivity to bring you new must-have capabilities!
Clarion’s extensive in-vehicle expertise spans decades giving us a keen eye for what consumers want and need. That’s why our multimedia lineup includes flexible car navigation solutions complemented with a wide array of audio visual capabilities, so that the road ahead is efficient AND entertaining. To coincide with your mobile lifestyle, we are constantly innovating to make certain that the interaction between your mobile device and in-car multimedia station is seamless. We invite you to experience a higher level of digitally driven satisfaction, with Clarion.

Clarion’s in-vehicle audio units feature a sharp and sophisticated design that blends perfectly with a wide range of automotive interiors. Compatibility with the latest digital media and technology such as PANDORA® internet radio, and iPod® and Bluetooth® connectivity lets you bring your world into your car.

As part of an all-Clarion system, or an upgrade to any existing system, our amps, subwoofers and speakers blow away the competition. Reproducing superior sound at high output levels is a science, and Clarion’s team of highly-skilled audio engineers has met the challenge and exceeded expectations. Offering a full lineup of aesthetically pleasing sound delivery devices, maintaining sound purity and clarity while looking good has never been so easy.
Expand Your World, Right from Your Car

NX706

2-DIN DVD MULTIMEDIA STATION WITH BUILT-IN NAVIGATION & 7-INCH TOUCH PANEL CONTROL

- iPhone® Audio and Video Playback
- Built-in Bluetooth® for Hands-free Calling & Audio Streaming
- 2-Zone Entertainment

15-Band Graphic Equalizer
Equipped with a full-featured 15-band graphic equalizer, you will enjoy superior control over the audio spectrum with frequency adjustments in the 25 Hz to 16 kHz range over fifteen bands. This gives you the power to get the most out of your sound system, and the ability to contour the sound output to your musical taste. Since the gain level can be adjusted for each source separately, you won’t need to adjust the volume every time you switch to a low-volume source such as the radio.

User Interface Offers Superior Visibility and Intuitive Operation
The large, highly visible icons on the touch panel make the NX706 extremely user friendly. Flick operation support enables you to scroll through map screens, music selection screens and more.

The onboard navigation system features map coverage of all 50 states plus Puerto Rico and Canada. It includes 8GB map storage, 11 million points of interest and supports English, Spanish and French. 3D mapping includes elevation, 3D buildings and landmarks for select cities.

Siri® Eyes Free for No-Fuss Operation of iPhone
To connect to Siri Eyes Free, simply pair your iPhone* to the NX706 via Bluetooth. Once the pairing is established, long press the VOICE key on the unit to launch Siri and enjoy a smooth and safe drive with one-touch operation. * Please visit our website for a list of compatible iPhones.

Optical Digital Output for Sound System Upgradability
Thanks to the optical digital output, it is possible to use an optical cable to connect to external units such as Full Digital Sound units or DSP devices to upgrade your system to digital. Connecting the center unit to Full Digital Sound units enables you to enjoy cutting-edge high-quality digital sound. And since the output can be set to Fixed or Variable, you can maximize the volume of the source unit and adjust it at the processor, or finely adjust volume directly at the source unit.

www.clarion.com
The Smart Access cloud service platform enables your car to connect to a vast array of content and information by way of cloud computing, using a smartphone. Since information is constantly updated, you can always have access to the latest and most relevant information available. Content ranging from GPS navigation to SNS (Social Network Services) is accessible via your smartphone, using apps optimized for in-car use.

Just say something like “I’m hungry” and Clarion Intelligent VOICE™ will answer back. Throw it a question like “Any good sushi bars in town?” and you’ll get the answers and suggestions you’re looking for, spoken out loud so you can keep your eyes on the road. Clarion Intelligent VOICE™ utilizes Google™ voice recognition technology and information to make searching a breeze.

Searching Couldn’t Be Simpler

Just say SMS (Short Message Service) and simple voice prompts will ask you the rest — tell it the name of the recipient and the message to send, and off it goes hands-free. Google™ Account functionality enables you to sync with mail and calendar. Have your incoming emails read aloud to you, compose and send emails, and check your schedule quickly and easily.

Always Stay on Top of Things

Just say SMS (Short Message Service) and simple voice prompts will ask you the rest — tell it the name of the recipient and the message to send, and off it goes hands-free. Google™ Account functionality enables you to sync with mail and calendar. Have your incoming emails read aloud to you, compose and send emails, and check your schedule quickly and easily.

* SMS function is valid on Android smartphones only.

A Growing Array of Road-Ready Apps (Smart Access Smartphone Link)

Smart Access allows you to easily enjoy the apps you like on your NX605 through Smartphone integration. Link your car with your life for weather, news, internet radio and SNS (Social Network Services).

Power Output: 19W RMS x 4 Channels at 4Ω and ≤1% THD+N
• Built-in Bluetooth® for Hands-free Calling & Audio Streaming
• 2-Zone Entertainment

GPS Navigation with Rich Graphics and Superior Functionality
NX405 features a built-in car navigation system with simple destination input, turn-by-turn voice prompts, and selectable route guidance - everything you need to reach your destination quickly and efficiently. Pre-loaded with 11 million points of interest, its database includes national parks, restaurants, gas stations and much more.

Extensive Media Support for High-Quality Video and Audio Enjoyment
In addition to CDs and DVDs, the VX405 also supports playback of music and video files stored on a smartphone, microSD card or USB memory device. The VX405 uses high-speed CPU to enable high-quality H.264 video as well as FLAC (Free Lossless Audio Codec) audio files to be enjoyed in your car.

CZ505

HD Radio™/Bluetooth®/CD/USB/MP3/WMA RECEIVER

- Power Output: 22W x 4 RMS (4Ω/14.4V, 1% THD+N)
- Signal to Noise Ratio: 93dB (Ref; 1W into 4Ω)
- Bluetooth aptX®
- Built-in HD Radio™
- Pandora® Internet Radio Capability
- 6-Channel / 4 Volt RCA Output
- 50W x 4 High Power Amplifier

The CZ505 features a sleek design and sophisticated styling that elevates you to the next level of car audio. This unit uses high quality materials to create a sharp high-tech appearance while maintaining ease of use.

Enjoy HD Radio with digital multicasting so you can listen to your favorite FM and AM stations with high quality digital sound, and access a wider variety of programming. Get advanced functions like iTunes® tagging, and with the receiver built-in, you're good to go from day one!

CZ505 incorporates the Bluetooth aptX codec that is also incorporated in many Android™ Phones*. Since it retains the sound elements that are lost during digital compression of audio files, you can enjoy near CD quality sound. Now it’s possible to listen to high quality audio with wireless convenience.

* Please see our website for details of compatible Bluetooth mobile phones.
Seamlessly Enjoy the Music You Love

CX505
2-DIN HD Radio/Bluetooth/CD/USB/MP3/WMA RECEIVER

- Power Output: 22W x 4 RMS (4Ω, 14.4V, 1% THD+N)
- Signal to Noise Ratio: 93dB (Ref: 1W into 4Ω)
- Built-in HD Radio
- SiriusXM-Ready
- Pandora Internet Radio Capability
- 6-Channel / 4 Volt RCA Output
- 50W x 4 High Power Amplifier

Enjoy Interactive Pandora Internet Radio Anytime on the Road

The large volume knob positioned in the center, clustered control buttons, large display area and cool blue illumination all contribute to this model’s signature look and superior usability.

Have fun with the same Pandora internet radio stations you enjoy at home on your PC. Give songs a “thumbs up” or “thumbs down” — this interactivity means you’ll be listening to more of the songs you want. Just connect your iPhone* and open up a whole new world of radio.

* CX505 plays iPhone content via Bluetooth or USB.

SiriusXM Satellite Radio with Optional Tuner (SXV200 or SXV300)

Connecting an optional SiriusXM Vehicle Tuner gives you access to hundreds of channels, including commercial-free music, sports, news, talk and entertainment. Artist, Song, Game Alerts and Replay functions, make it easy to keep up with your favorites! iTunes Tagging is also supported.

CX305
2-DIN Bluetooth/CD/USB/MP3/WMA RECEIVER

- Power Output: 22W x 4 RMS (4Ω, 14.4V, 1% THD+N)
- Signal to Noise Ratio: 93dB (Ref: 1W into 4Ω)
- Bluetooth®
- SiriusXM-Ready
- Pandora Internet Radio Capability
- 6-Channel / 4 Volt RCA Output
- 50W x 4 High Power Amplifier
- 728-Variable Color Illumination for Keys and LCD

Compact, Dustproof, Weatherproof and Vibration Resistant

RG9451
WEATHERPROOF 12/24V AUDIO UNIT

Just because you have to work outdoors doesn’t mean you should have to give up the comfort of a quality audio unit. That’s why, at Clarion, our commitment to making superior in-vehicle products doesn’t stop at regular cars. To meet the rigorous demands of work on a construction site or in an agricultural setting, we created the RG-9451 weatherproof audio unit. With a rugged, watertight design that keeps out dust and water and dampens vibrations, the RG-9451 lets you listen to your favorite broadcasts without worrying about the weather or the environment.
