

clarion

ITALDESIGN-GIUGIARO
"QUARANTA", the Clarion H.M.I. concept car created by Italian designer GIUGIARO,
one of the world's top industrial design firms.

clarion

Open The Future. Make It Real.

Anyone can imagine — but without willpower and expertise, it can not be realized.

At Clarion, we specialize in visualizing the most innovative, user-friendly concepts for in-vehicle entertainment, turning them into tangible solutions that seamlessly link your drive to the outside world.

Interfacing humans with music and media in a mobile environment — with Clarion H.M.I., you are the ultimate destination.

Navigate with Style

MULTIMEDIA

Graphical User Interface

Only three buttons on the front panel — the rest is handled by the intuitive graphical interface that displays a variety of functions from navigation to entertainment.

Built-in Bluetooth® for Hands-free Calling

Wirelessly connect your Bluetooth capable cell phone to listen to calls through your vehicle's audio system. HFP is supported.

Superior iPod® and iPhone™ Connectivity

*For compatibility details, please visit the Clarion website. Playback of iPod Video requires the optional cable CCA723/748.

Built-in Navigation System

Count on GPS accuracy and an efficient mapping engine to guide you to your destination. Internal flash memory provides fast access to data, while 3D rendered graphics give you a realistic view of the route you're on.

MULTIMEDIA

TechnoPhile: iTunes® Tagging

iTunes® Tagging allows listeners to “tag” songs heard on their HD Radio Receiver. Tagging saves the song’s title and metadata to a connected iPod. When the iPod is synced to iTunes, a playlist is generated with links to the iTunes Store where the song can be purchased and downloaded.

Sirius Direct Connection Ready

Connect to a Sirius Satellite Radio receiver without any need for an interface box — and enjoy over 130 channels of music, news, talk shows, sports and traffic information with digital quality sound throughout the U.S. and Canada.

CMD6
WATERTIGHT MARINE CD/USB RECEIVER WITH CeNET CONTROL

CEA 2006 Power Ratings
21W x 4 RMS (4Ω @ 14.4V, 5% THD+N)
S/N 91dB (Ref: 1W into 4Ω)

Engineered to Withstand Water and Salt

Water is a marine source unit's worst enemy, and salt can be a nightmare. Our CMV1 and CMD6 source units have been IPX5 tested and certified to offer the highest water intrusion protection and salt resistance in their class. Rubber gaskets stop water in its tracks, with integrated drainage channels to keep water out.

Stainless Steel for Durability Behind the Scenes

Should any water get behind the panel, the stainless steel chassis, along with an integrated drip shield over the main harness connector, helps protect internal circuitry from the effects of moisture, corrosion and mildew.

Essential Functions and Quality with Added Reliability

MARINE AUDIO SYSTEMS

Solid Expressions of Power, Streamlined for a Single Purpose - High Output to Drive Your System

- ✓ Class GH and AB Models
- ✓ Precise Frequency Selector

XH7110
MONO CLASS GH POWER AMPLIFIER

CEA 2006 Power Ratings
460W x 1 RMS (4Ω @ 14.4V ±1% THD+N)
S/N 86dB (Ref: 1W into 4Ω)

BC2 (Optional Wired Remote Bass Control)

- Remote Control for XH7110 Amplifier

Circuit Design Achieves High Quality Sound (XH Series)

Clarion amplifiers feature uncompromising resistance to magnetic noise, thereby minimizing distortion, as well as gold-plated block terminals to offer low electrical and contact resistance. Easy subwoofer system configuration is possible with the embedded high-pass and low-pass filters. The result is high quality sound you can enjoy in a variety of systems.

Maximum RMS Power: 50 watts
Impedance: 4 ohms

PMI-PP Cone

The diaphragm uses a newly developed hybrid material in which Pearl Mica are mixed with a Polypropylene base material. This material allows the development of speaker cones that are lighter and more responsive, as well as highly durable and resistant to distortion. It offers a unique shimmer that makes it look as bright and beautiful as it sounds.

Pure Soft Dome

Equipped exclusively on the tweeters of SRQ Series speakers, this new material balances suppleness and firmness for highly responsive reproduction of high frequencies. Its translucent black design gives it a unique look and presence that is in-step with the precision acoustic performance it is capable of offering.

Any route suggestions made by this navigation system may never override any local traffic regulations, your own judgment, and/or knowledge of safe driving practices. Disregard route suggestions by the navigation system if such suggestions would: cause you to perform a hazardous or illegal maneuver, place you in a hazardous situation, or route you into an area you consider unsafe. • The advice provided by the navigation system is to be regarded only as a suggestion(s). There may be situations where the navigation system displays the vehicle's location incorrectly, fails to suggest the shortest course, and/or fails to direct you to your desired destination. In such situations, rely on your own driving judgment, taking into account current driving conditions. • Do not use the navigation system to route you to emergency services. The database does not contain a complete listing of locations of emergency service providers such as police, fire stations, hospitals and clinics. Please use your judgment and your ability to ask for directions in these situations. • As a driver you are solely responsible for your road safety. • In order to avoid a traffic accident or traffic offense, remember that actual road conditions and traffic regulations take precedence over the information contained in the navigation system. • Accordingly, the software may contain inaccurate or incomplete information due to the passage of time, changing circumstances, and due to the nature of the sources used. Please observe the actual traffic circumstances and regulations at all times while driving. • The navigation system does not provide, or account for in any way, information regarding traffic and road laws; vehicle specifications including weight, height, width, load, and/or speed restrictions; road conditions including road slope, grade, and/or surface conditions; obstruction information including bridge and tunnel height and width, and/or other prevailing driving and/or road conditions. Always rely on your own driving judgment, taking into account current driving conditions. • Minimize the amount of time spent viewing the screen while driving. • The driver should not operate this unit while driving. Be sure to stop the vehicle in a safe place when the driver is operating this unit. For safety, some of the navigation functions are prohibited unless the vehicle is stopped with the parking brake engaged. • 3rd party devices such as, but not limited to, Apple iPods, Bluetooth mobile phones, Sirius XM Satellite Radio tuners are not included in Clarion products.
