MULTIMEDIA / NAVIGATION

The Leading Edge Driving Experience

Clarion's multimedia lineup includes flexible car navigation solutions complemented with a wide array of audio visual capabilities, so the road ahead will always be both efficient and entertaining. Touch screen operation with support for flick operation lets the user interact with the source unit similar to how you would directly on an iPhone®. Experience a higher level of digitally-driven satisfaction, with Clarion.

SOURCE UNITS

Superior Audio Connectivity and Flexibility

Clarion's in-car audio features a sharp and vivid design that integrates nicely with a wide range of interiors. Compatibility to the latest digital media such as DAB+ (Digital Radio), iPod® and Bluetooth® lets you bring your world, seamlessly, into your car. And our commitment to sound quality led us to adopt MOS-FET power amps on all of our main units.

AMPLIFIERS / SUBWOOFERS / SPEAKERS

The Power to Really Drive Your Music

Clarion's amps, subwoofers and speakers are ready to blow the competition away. Reproducing superior sound at high output levels is a science, and Clarion is up to the challenge. The result is a full lineup of devices that have a direct impact on what you hear and how you look. Sound purity even with the volume cranked up, plus eye-catching extreme design to get you noticed, that's Clarion.

MARINE AUDIO SYSTEMS

Ride the Waves with Sound You Can Sea

Borderless in the extreme, you can take your favourite tunes out of the car and out to sea — with Clarion's watertight heavy-duty source units and components. They're engineered to take on the spray, salt and fog, and just keep going. Install Clarion in your vessel, and make your next cruise a real splash, filled with knots and knots of nautical entertainment.

Locate your Authorised Clarion Dealer

To ensure that your product is specifically manufactured to Australian standards and that it is supported and warranted* by Clarion Australia, you should only purchase your product(s) within Australia from an authorised dealer found at **www.clarion.com.au/Dealer_Locator**. Authenticity of products purchased from non-authorised dealers and/or from overseas companies cannot be guaranteed, nor can the operation of Navigation, DVD, AM/FM and other features.

*Warranty terms and conditions apply and are available on our website

Use a QR Code scanner to find an authorised Clarion dealer

*FREE Extended Warranty

You always know when you purchase a Clarion product you will receive nothing but the best designed and highest quality product money can buy. However for added piece of mind, all Navigation, Multimedia & Audio source units qualify for our free extended warranty program. Simply register your purchase via **www.clarion.com.au/Warranty_Registration**

Ask your Authorised Clarion dealer for your registration card at the time of purchase.

*Subject to terms and conditions available on our website

All new Navigation features for tomorrow, today

Delivering Rich Content like never before

The Australian Good Food Guide has long been considered Australia's principal independent restaurant, accommodation and winery guide which encompasses not only all major metropolitan areas but many of the smaller townships. AGFG includes Wineries, Restaurants, Nightlife, Hotels, Ski Resorts, Tourist Information, Park and Recreation Areas, Golf Courses, Tourist Attractions, Museums, Campgrounds, and Bar/Pub reviews. This product also includes a selection of images of top restaurants and cuisines. Take the hassle out of searching by using the new Australian Good Food Guide content filter for the fastest and easiest way to select your next AGFG destination.

Explore our great country with Lonely Planet

The Lonely Planet Travel Guide includes information for categories such as tourist attractions, shopping, nightlife, hotels and restaurants based on the valued and well-known publisher Lonely Planet. This new rich content enables the Clarion navigation software to provides you with options to maximize leisure time by including the most interesting and exciting experiences whether in your home town or when you are exploring a new city. The NX702A also allows you to filter your POI searches by the use of the Lonely Planet content filter for the best Lonely Planet navigation experience to date. Never before has this much content been right at your fingertips.

Tell your navigation "*where to go*"

Find Parking around destination

Inputting your destination or finding a point of interest has never been easier with the NX702A's advanced voice recognition system. Save yourself the time and hassle of scrolling through menus by literally telling your navigation where to go. You can use this feature for addresses, points of interests and even your favourite saved destinations. Once you have mastered using the voice recognition you can even choose an advanced mode for an even faster method of selecting your next destination or waypoint.

Go "*off-road*" with Clarion

Included as standard on NX702A, NX502A & NZ502A, NAVTEQ Off-Road provides information needed to find and navigate off-road courses with over 1,000 tracks across Australia. This 4WD specific information includes data from leading off-road map supplier HEMA®. With true 4WD Tracks, Mines, Collieries and much more, you can experience both the best of on-road and off-road navigation.

Save time & stress with "*Live Traffic Updates*"

With up-to-the-minute information of traffic incidents including accidents, road closures, traffic congestion, major road works and special events. This service covers more than 95% of the Australian main metropolitan population. Through the premium Navigation software you can customise the Live Traffic service to best suit your requirements. Expect Clarion to provide you with this much control of Live Traffic content.

Navigation just got a whole lot "*smarter*"

Everyone knows that travel times are impacted by routine congestion – but most other navigation products don't take this into account! Standard across all 2012 Navigation products is SUNA Predictive Traffic, also known as "Smart Traffic". SUNA Predictive data was created to address the automotive and consumer electronics industries' need to provide motorists improved routing & travel time advice in advanced navigation applications.

Truck, Light Commercial & Caravan solution

TRANSPORT

Transport enables sophisticated navigation for trucks, light commercials and caravans alike. It contains over 20 specific road attributes including; physical restrictions (weight, height, length and width), legal restrictions relating to access and manoeuvres (e.g.; "no right turn for trucks"), transport preferred routes and transport alerts. Enabling route calculation in accordance with transport specific road rules and restrictions in Australia. No matter whether it's your first time towing the new caravan or you're an experienced transport operator, the transport feature built-in to the NX702A combined with Live & Smart traffic information, will get you to your destination faster, easier and safer than ever before.

Interactive GUI with flick operation

The NX702A's touch screen GUI (Graphical User Interface) supports flick operation, so you can quickly scroll to another menu page. Feature icons are animated for an enhanced appearance, and they can be dragged and dropped into different positions to customise the screen. Even choose your own background image and your own favourite key illumination for the ultimate customised, interactive experience.

Parrot Bluetooth

Made for iPod iPhone

DVB-T Built-in

Parrot Bluetooth® for hands-free communication, phone book access and audio streaming

Built-in Parrot Bluetooth provides hands-free telephone communication, with comprehensive compatibility with a variety of mobile phones. With a built-in microphone and Phone book access, you can safely talk and drive at the same time. Play music stored on your mobile phone with Bluetooth audio streaming.

* Dependent on mobile phone.
* Please see our website for compatible Bluetooth mobile phones.

### Made for iPod® and Made for iPhone® for seamless integration

Made for iPod and Made for iPhone certified, so you can enjoy the convenience of iPod/iPhone ABC Search to quickly access tunes, and simple control mode to allow operation using the iPod/iPhone controls. Album Artwork is displayed to visually enhance interactivity.

* iPod / iPhone audio connection cable included
* iPod / iPhone video via optional CCA748 or CCA750 cable

Built-in Digital TV Tuner with Touch Screen Control

For TV entertainment in your car that's crystal clear and rock solid, NX702A is equipped with a built-in tuner for DVB-T reception. Less susceptible to noise interference than analogue TV broadcasting, DVB-T broadcasts will let you fill your drive with audiovisual entertainment — especially enjoyable for your passengers during long trips. And since it's built-in, there's nothing extra to buy!

Time Alignment

2 ZONE Entertainment

BeatEQ Plus
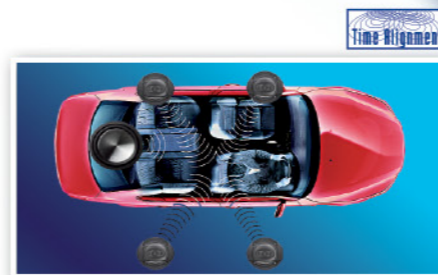

Digital time alignment with 3-way crossover

Digital Time Alignment assures that the sound from each speaker reaches the listener at the same time for perfect sonic imaging. The 3-way crossover separates the sound into different bands to match each speaker's output range.

2-zone entertainment

By adding a Clarion overhead monitor system, you open up a whole new world of entertainment for your rear-seat passengers. This allows rear seat passengers to enjoy a DVD movie or iPod Video while the front seat passengers enjoy their favorite radio station or music from USB.

5-Band Parametric Equaliser

In addition to providing 3 preset equalisation patterns, Clarion's "Beat EQ Plus" allows you freedom to customise each pattern by dividing the sound spectrum into 5 bands. You can finely adjust the sound to your liking, depending on the genre of music, for a fulfilling listening experience.

The Ruggedness to Ride the Waves

The Newest Wave in Marine Entertainment

Engineered to Withstand Water and Salt (CMV1/CMD6/CMD7/CMS1)
Water is a marine source unit's worst enemy, and salt can be a nightmare. Our CMV1 and CMD6/CMD7 source units have been IPX5 tested and certified to offer the highest water intrusion protection and salt resistance in their class. Rubber gaskets stop water in its tracks, with integrated drainage channels to keep water out.

Stainless Steel for Durability Behind the Scenes (CMV1/CMD6/M309)
Should any water get behind the panel, the stainless steel chassis, along with an integrated drip shield over the main harness connector, helps protect internal circuitry from the effects of moisture, corrosion and mildew. This gives you the ultimate protection for all marine applications while also giving you piece of mind knowing your product is protected.

XC6410   XC6210

Everything You Need to Make Serious Waves

By utilizing Conformally Coated PC Boards and corrosion resistant RCA and block terminals, XC series amplifiers offer improved durability and reliability in harsh environments. The XC series amplifiers are true marine amplifiers with oversized aluminium heat-sinks, locking power terminals and stainless steel hardware for the harsh marine conditions.

	Maximum RMS Power Output	4-Ohm RMS	2-Ohm RMS	Type	Number of Channels	Dimensions (W x L x H)	CEA 2006 Power Ratings
