Notes to the Consolidated Financial Statements

March 31, 2010

1. Basis of presenting consolidated financial statements

Clarion Co., Ltd. (“Clarion”) and its subsidiaries in Japan maintain their records and prepare their financial statements in accordance with accounting principles generally accepted in Japan, while its overseas subsidiaries maintain their records in conformity with accounting principles generally accepted in their respective countries of domicile. Effective April 1, 2008, Clarion adopted the “Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements (PITF No. 18).” In accordance with PITF No. 18, the accompanying consolidated financial statements for the year ended March 31, 2009 have been prepared by using the accounts of foreign consolidated subsidiaries prepared in accordance with either International Financial Reporting Standards (IFRS) or accounting principles generally accepted in the United States as adjusted for certain items. Until March 31, 2008, the accompanying consolidated financial statements had been prepared by using the accounts of foreign consolidated subsidiaries prepared in accordance with accounting principles generally accepted in their countries domicile. The accompanying consolidated financial statements of Clarion, its subsidiaries and affiliates (collectively, “the Company”) are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to the application of and disclosure requirements of International Financial Reporting Standards, and are compiled from consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Law of Japan.

The accompanying consolidated financial statements include certain reclassifications and rearrangements in order to present them in a form that is more familiar to readers outside Japan. In addition, the notes to the consolidated financial statements include information that is not required under generally accepted accounting principles and practices in Japan, but which is provided herein as additional information. None of the reclassifications nor rearrangements have a material effect on the consolidated financial statements.

Certain notes and amounts previously reported have been rearranged and reclassified to conform to the current year presentation.

The amounts presented in millions of yen are truncated for amounts less than 1 million. Totals may not add up exactly because of such truncation.

2. Summary of significant accounting policies

(1) Consolidation and investments in affiliates

The accompanying consolidated financial statements include the accounts of Clarion and its subsidiaries that are controlled by Clarion. Under the effective control approach, all majority-owned companies are to be consolidated. Additionally, companies in which share ownership equals 50% or less may be required to be consolidated in cases where such companies are effectively controlled by other companies through the interests held by a party who has a close relationship with the parent company in accordance with accounting standards generally accepted in Japan. All significant intercompany transactions and accounts and unrealized intercompany profits are eliminated in consolidation.

Investments in affiliates in which Clarion has significant influence are accounted for using the equity method. Net income in the accompanying consolidated statements of operations includes Clarion’s equity in earnings or losses of affiliates after elimination of unrealized intercompany profits.

A difference in fiscal periods of Clarion and its subsidiaries does not by itself justify the exclusion of a subsidiary from consolidation. As the difference is not more than three months, it is acceptable to use, for consolidation purposes, the subsidiaries’ financial statements for their fiscal periods. For significant transactions during the period between those subsidiaries’ fiscal year-end and the balance sheet date of Clarion, necessary adjustments are made in the consolidated financial statements.

The excess of the cost over the underlying fair value of investments in subsidiaries is recognized as goodwill. Goodwill relating to Mexican subsidiaries is being amortized over a period of 20 years.

(2) Translation of foreign currency transactions and balances

Foreign currency transactions are generally translated using foreign exchange rates prevailing at the transaction dates. Assets and liabilities denominated in foreign currencies are translated at the current exchange rates at the balance sheet date.

All assets and liabilities of overseas subsidiaries are translated at current rates at the respective balance sheet dates whereas shareholders’ equity is translated at historical rates and all income and expense accounts are translated at average rates for the respective periods.

(3) Cash and cash equivalents

Cash and cash equivalents in the consolidated statements of cash flows is comprised of cash on hand, bank deposits able to be withdrawn on demand, and short-term highly liquid investments with original maturities of three months or less, which represent a minor risk of fluctuations in value.

(4) Financial instruments

(a) Securities

Investments in debt and equity securities are classified into three categories: 1) trading securities, 2) held-to-maturity debt securities, and 3) other securities.

These categories are treated differently for the purpose of measuring and accounting for changes in fair value.

Trading securities are held for the purpose of generating profits from changes in market value and are recognized at their fair value in the consolidated balance sheets. Unrealized gains and losses are included in current income. Held-to-maturity debt securities are expected to be held to maturity and are recognized at historical or amortized cost in the consolidated balance sheets. Other securities, for which market quotations are available, are recognized at fair value in the consolidated balance sheets. Unrealized gains and losses on these other securities were classified as a separate component of net assets at a net-of-tax amount. Cost of securities sold is determined by the moving average method.

Other securities for which market quotations are unavailable are stated at cost, based on the weighted-average cost method.

(b) Derivative financial instruments

All derivatives are stated at fair value, with changes in fair value charged to current income for the period in which they arise, except for derivatives that are designated as “hedging instruments” (see (c) Hedge accounting below).

(c) Hedge accounting

The Company has a policy to utilize hedging instruments to reduce their exposure to the risk of fluctuation in foreign currency exchange rates.

Gains or losses arising from changes in fair value of the derivatives designated as “hedging instruments” are deferred as a separate component of net assets at a net-of-tax amount and charged to income in the same period the gains and losses on the hedged items or transactions are recognized.

The derivatives designated as hedging instruments by the Company are principally forward foreign currency exchange contracts.

(5) Allowance for doubtful accounts

The allowance for doubtful accounts is calculated based on the aggregate amount of estimated credit losses for specific receivables, in addition to an amount calculated using historical write-off experience from certain prior periods for receivables other than specific receivables.

(6) Inventories

For Clarion and its domestic subsidiaries, inventories are stated at cost determined by the weighted-average method and supplies are stated at cost, which is determined by last purchase price method. The amount shall be carried at cost on the balance sheets. In the case that the net selling value falls below cost at the end of the period, inventories shall be carried at the net selling value on the balance sheets, regarded as decreased profitability of assets. As for overseas subsidiaries, inventories are stated at the lower of cost, which is mainly determined by the first-in, first-out method, or market.

(7) Property, plant and equipment (Except for lease assets)

Property, plant and equipment, including significant renewals and improvements, are carried at cost less accumulated depreciation. Maintenance and repairs, including minor renewals, are charged to income as incurred.

For Clarion and its domestic subsidiaries, depreciation, except for dies, is computed under the declining-balance method at rates based on the estimated useful lives of the assets, which are prescribed by the Corporation Tax Law of Japan. For buildings acquired by Clarion and some of the domestic subsidiaries on or after April 1, 1998, depreciation is computed under the straight-line method. Dies, included in machinery and equipment, are depreciated under the straight-line method over the estimated useful lives of the assets for Clarion, and its domestic subsidiary. For overseas subsidiaries, depreciation is computed under the straight-line method.

(8) Intangible assets (Except for lease assets)

Intangible assets, including goodwill and capitalized software costs, are carried at cost less accumulated amortization.

Goodwill represents the excess of purchase price and related cost over the fair value of the business acquired and is amortized over a period of 10 years by Clarion.

Capitalized software costs consist of costs of purchased or developed software. Software for internal use is amortized by the straight-line method over its estimated useful lives 5 years. Software for sale to the market is amortized at the greater of either the amount based on sales in the year, as a proportion of total estimated sales 3 years or the amount calculated on a straight-line basis over the remaining salable period.

(9) Lease assets

Depreciation of the finance leases which do not transfer ownership is calculated based on the straight-line method over the lease term of the assets with no residual value.

(10) Impairment of fixed assets

The accumulated impairment loss is deducted from the net book value of each asset.

(11) Accrued bonuses

Accrued bonuses to employees are provided at the estimated amounts, which Clarion and some of its subsidiaries expect to pay to employees after the fiscal year-end, based on services provided during the current period.

(12) Accrued pension and severance costs

For Clarion and some of its subsidiaries, accrued pension and severance costs are stated at an amount calculated based on the projected benefit obligation and the fair value of pension plan assets as adjusted for unrecognized net obligation at transition, unrecognized actuarial differences and unrecognized prior service costs. Unrecognized net obligation at transition is amortized over a period of 10 years. Unrecognized actuarial differences of Clarion and its domestic subsidiaries are amortized on a straight-line basis over a period of 7 to 15 years commencing the year following the year in which they arise. Unrecognized prior service costs of Clarion are amortized on a straight-line basis over a period of 13 years which is within the average remaining years of services of employees.

Clarion changed its retirement benefit plan as of April 30, 2010 from previous defined benefit plan and retirement lump sum grants to defined benefit plan, retirement lump sum grants and defined contribution pension plan.

The effect of this transfer on the Company's consolidated results of operations for the fiscal year ended March 31, 2010 is 200 million yen and it is posted in other expenses as "Loss from Transfer between Retirement Benefit Plans" in accordance with "Accounting Standard for Transfer between Retirement Benefit Plans" (ASBJ Guidance No. 1) and "Practical Solution on Accounting for Transfer between Retirement Benefit Plans" (PITF No. 2).

(13) Accrued warranty costs

For Clarion and some of its subsidiaries, accrued warranty costs are provided based on historical experience of such expense.

(14) Accrued retirement benefit for directors and corporate auditors

Accrued retirement benefit for directors and corporate auditors have been made for the vested benefits to which they are entitled. In line with the approval at the General Shareholders' Meeting held on June 25, 2008, the Company has ceased the additional accruals.

(15) Research and development costs

Research and development costs are expensed as incurred.

(16) Income taxes

The provision for income taxes is computed based on income before income taxes and minority interests in the consolidated statements of operations. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the tax basis of assets and liabilities and their reported amount in the financial statements.

Clarion obtained approval from the National Tax Agency in Japan to file under a consolidated tax return system effective the year beginning April 1, 2002. Clarion has adopted the consolidated tax return system for the calculation of income taxes since the year ended March 31, 2003. Under the consolidated tax return system, Clarion consolidates all wholly-owned domestic subsidiaries based on the Japanese tax regulations.

(17) Revenue recognition

Sales are generally recognized at the time goods are delivered to customers.

(18) Amount per share

Basic net income/(loss) per share is computed based on the net income/(loss) available for distribution to shareholders of common stock and weighted-average number of shares of common stock outstanding during the year. Diluted net income per share is computed based on the net income available for distribution to the shareholders and the weighted-average number of shares of common stock outstanding during each year after giving effect to the dilutive potential of shares of common stock to be issued upon the conversion of convertible bonds or the exercise of warrants.

Net assets per share is computed based on the net assets available for distribution to shareholders of common stock and the number of shares of common stock outstanding at the balance sheet date.

3. U.S. dollar amounts

U.S. dollar amounts stated in the consolidated financial statements are included solely for convenience of readers outside Japan. The rate of ¥93.04 = US$1, the approximate rate of exchange as of March 31, 2010, has been used in translation. These translations should not be construed as representations that the Japanese yen amounts actually represent, or have been or could be converted into U.S. dollars. The amounts presented in thousands of U.S. dollars are truncated for amounts less than 1 thousand. Totals may not be added up exactly because of such truncation.

4. Impairment loss on fixed assets

The Company has recognized impairment loss of ¥36 million ($395 thousand), ¥12 million, and ¥364 million for the following group of assets as of March 31, 2010, 2009 and 2008 respectively.

Location	Use	Category	Impairment loss			
			2010	2009	2008	**2010**
			(Millions of yen)			*(Thousands of U.S. dollars)*
Kumamoto-shi, Kumamoto Prefecture and other	Other	Land	**¥ 36**	—	—	**$ 395**

Ninohe county, Iwate Prefecture and others	Others	Land and buildings	**—**	—	¥ 59	**—**
Moerfelden, Germany	Office	Land	**—**	—	¥ 305	**—**

The Company assessed impairment of each group of assets, which are grouped on the basis of managerial accounting and for investment decision-making purposes.

Due to the decline mainly in real estate value, operating profitability has worsened substantially. Therefore, the Company has decided to mark the assets down to the recoverable value, and recognized impairment loss of ¥36 million ($395 thousand), ¥12 million and ¥364 million for the years ended March 31, 2010, 2009 and 2008, respectively which comprises of land totaling ¥36 million ($395 thousand), ¥12 million and ¥333 million, respectively, and other totaling ¥31 million for the year ended March 31, 2008.

The recoverable value is mainly determined as publicly-assessed land value or the appraisal value.

8. Financial Instruments

Effective the year ended March 31, 2010, “Accounting Standard for Financial Instruments” (ASBJ Statement No. 10 issued on March 10, 2008) and “Guidance on Disclosures about Fair Value of Financial Instruments (ASBJ Guidance No. 19 issued on March 10, 2008) are applied.

(1) Matters regarding financial instruments

(a) Policy regarding the handling of financial instruments

The group procures necessary funds based on management plans mainly through borrowings from banks or the parent company. Temporary surplus funds are retained in the form of financial assets with high liquidity. The Company makes use of derivatives in order to avoid potential risks as stated below, and as a policy it does not engage in speculative transactions.

(b) Description of financial instruments and respective risks

Trade notes and accounts receivable are exposed to credit risks of customers. Trade accounts receivable denominated in foreign currencies are exposed to risk of exchange rate fluctuation. In order to mitigate such exchange risk, the Company enters into hedging transactions based on the expected sales transacted in foreign currencies through forward exchange contracts.

Investments in securities are primarily shares in companies with which the Company has business relationships and these are exposed to risk of changes in market prices.

Most notes payable and accounts payable, which are trade debts, are settled within 4 months. Part of such trade debts is denominated in foreign currencies and is exposed to risk of exchange rate fluctuation. In order to mitigate such exchange risk, hedges of expected transactions are entered into through forward exchange contracts.

Derivative transactions such as forward exchange contracts for the purpose of hedging against exchange rate fluctuation risk for trade accounts receivable and payable denominated in foreign currencies are utilized by the Company.

(c) Systems and organizations for managing risk in connection with financial instruments

-1) Credit risks (Contract defaults etc., by trade partners)

The sales administration department regularly monitors trade partners in connection with outstanding receivables in accordance with policy of credit administration. With these processes, due dates as well as balances of all trade partner are controlled in addition to the detection and mitigation of possible collection risks due to any deterioration in credit situation. Consolidated subsidiaries pursue procedures based on the Company's policy of credit administration.

With regard to derivative transactions, there is little risk of default of contract as the counterparties are financial institutions with high credit ratings.

-2) Market risks (Fluctuation risks of exchange rates and/or interest rates)

Risks are hedged in connection with trade receivables and payables in foreign currencies, in principle making use of forward exchange contracts based on monthly transaction amounts by type of currencies. The amount of investments in securities held by the Company is reviewed taking into consideration the relationships with trade partners as well as the overall market situation.

With regard to execution and administration of derivative transactions, administration policies are in place which provide for, among others, authorization for such. The departments in charge carry out such process of obtaining approvals from personnel responsible for authorizing transactions. Monthly amounts of such transactions are reported at the Corporate Management Meetings.

-3) Liquidity risks in connection with fund procurement (risks of failure to make payments on due dates)

The responsible department in the Company controls/administers liquidity by making/updating plans of cash receipts and payments based on reports from each department in a timely manner as well as through maintenance of liquidity on hand.

(2) Fair values of financial instruments

Amounts on the balance sheet, fair value and differences as of March 31, 2010 are as follows:

	March 31,2010

(*1) Amount is after deduction of general and individual allowance for doubtful accounts.

(*2) The values of assets and liabilities arising from derivatives are shown at net value, and with the amount in parentheses representing net liability position.

* Amounts stated as liabilities are in parentheses.

Notes:

Calculation of fair values of financial instruments, securities and derivative transactions

(1) Cash on hand and in banks and (2) Trade notes and accounts receivable

Since these items are settled in a short period of time, their carrying value approximates fair value.

(3) Investments in securities

The fair value is in accordance with market prices at security exchange.

(4) Trade notes and accounts payable, (5) Short-term loans and (6) Other accounts payable

Since these items are settled in a short period of time, their carrying value approximates fair value.

(7) Long-term loans

Since floating rates of interest are applied to long-term loans, the interest rates are changed periodically. Therefore, their carrying value approximates fair value.

(8) Derivative transactions

Please refer to Note 2 (4). (c).

9. Short-term and long-term debt

11. Shareholders' equity

The Corporation Law of Japan provides that an amount equal to 10% of the amount to be disbursed as distributions of capital surplus (other than the capital reserve) and retained earnings (other than the legal reserve) be transferred to the capital reserve and the legal reserve, respectively, until the sum of the capital reserve and the legal reserve 25% of the capital stock account. Such distributions can be made at any time by resolution of the shareholders, or by the Board of Directors if certain conditions are met, but neither the capital reserve nor the legal reserve is available for distributions.

12. Revaluation of land used for business operations in accordance with the Land Revaluation Law

In accordance with Article 119 of 1998 Cabinet Order – Article 2-1 of the Enforcement Ordinance relating to the Land Revaluation Law, revaluation is performed by the method of calculating land value for the standard basis of land in accordance with the Law for Government Appraisal of Land Prices. Under Article 2-4 of the Enforcement Ordinance, revaluation is performed by using the method of calculating land value for a taxable basis of the Land Value Tax amounts along with reasonable adjustments, such as shape of the land and accessibility, in accordance with the Article 16 of the Land-Holding Tax Law. This method is established and published by the Director General of the National Tax Administration, and the land is valued by the real estate appraiser in accordance with Article 2-5. As a result, deferred income taxes on revaluation of land is recorded as liabilities and net unrealized gain on revaluation of land, net of tax, was recorded as a component of net assets.

As of March 31, 2010 and 2009, the differences between fair value and carrying amount after revaluation dated March 31, 2001 were as follows:

	March 31

16. Leases

The Company, as a lessee, charges periodic lease payments for finance leases which do not transfer ownership of the leased property to the lessee and have been entered into before April 1, 2008, to expense on payment. Such payments for the years ended March 31, 2010, 2009 and 2008 were ¥823 million ($8,850 thousand), ¥1,282 million and ¥1,542 million, respectively.

The amount of outstanding future lease payments for finance leases as of March 31, 2010 and 2009, excluding the interest thereon, are summarized as follows:

	March 31		
	2010	2009	**2010**
	(Millions of yen)		*(Thousands of U.S. dollars)*
Future lease payments:			
Due within one year	**¥ 447**	¥ 862	**$ 5,130**
Due after one year	**550**	1,367	**5,915**
Total	**¥1,027**	¥2,230	**$11,045**

Pro forma information as of and for the years ended March 31, 2010 and 2009 relating to acquisition cost, accumulated depreciation, depreciation expense and interest expense for property held under finance leases which do not transfer ownership of the leased property to the lessee and have been entered into before April 1, 2008, if finance lease accounting had been applied to finance leases currently accounted for as operating leases are as follows:

	March 31		
	2010	2009	**2010**
	(Millions of yen)		*(Thousands of U.S. dollars)*
Acquisition cost	**¥4,252**	¥5,347	**$45,705**
Accumulated depreciation	**(3,334)**	(3,678)	**(35,839)**
Net book value	**¥ 917**	¥1,669	**$ 9,865**
Depreciation expense	**¥ 679**	¥1,074	**$ 7,301**
Interest expense	**¥ 117**	¥ 181	**$ 1,264**

Depreciation is calculated based on the straight-line method over the lease term of the assets with no residual value. Interest expense on leased assets is calculated as the difference between the total lease payments and the assumed acquisition cost for the asset and is allocated over the lease term using the effective interest method.

Future lease obligations for non-cancelable operating leases at March 31, 2010 and 2009 follow:

	March 31		
	2010	2009	**2010**

Report of Independent Auditors

The Board of Directors
Clarion Co., Ltd.

We have audited the accompanying consolidated balance sheets of Clarion Co., Ltd. and consolidated subsidiaries as of March 31, 2010 and 2009, and the related consolidated statements of operations, changes in net assets, and cash flows for each of the three years in the period ended March 31, 2010 all expressed in yen. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Clarion Co., Ltd. and consolidated subsidiaries at March 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended March 31, 2010 in conformity with accounting principles generally accepted in Japan.

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2010 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 3.
