Always with You. Navigate Your Life.

ClarionMiND is a completely new type of mobile Internet device created by the car audio and navigation expert Clarion. As a Next Generation Navigation plus Internet-Based Entertainment device, it provides GPS navigation, and with Wi-Fi and Bluetooth-enabled cellphone, the Internet can be accessed via a full browser anytime and anywhere. ClarionMiND has a new interface that allows you to navigate the real-world and the unlimited possibilities of the Internet at the touch of a finger. The possibilities for ClarionMiND are endless.

Powering ClarionMiND: the Mighty Intel® Atom™ Processor

ClarionMiND is powered by Intel’s smallest processor – the Intel® Atom™ Processor – which packs an astonishing 47 million transistors. Despite its small size, it is powerful enough to deliver a full range of Internet services and many useful applications.
Grab your ClarionMiND and get ready to have some fun. The combination of Internet access and navigation opens up a whole range of exciting possibilities. For example, you can use Google Maps’ huge database to check out information about a place you’ve been wanting to go, then have the navigation system guide you there. Plan an entire vacation by investigating places on the Internet, then having the system plot the best route. Or check YouTube for videos of interesting places within driving distance and then go see them for yourself. You can even take ClarionMiND with you on walking tours. With ClarionMiND, there’s always somewhere new to go, and something new to experience.

Full-featured navigation system from Clarion, a leading car audio and navigation manufacturer.

Navigation
ClarionMiND is a full-fledged navigation system that guides you accurately to your destination. It offers ease of operation along with a highly visible display that only a leading expert of mobile navigation and entertainment products can provide. Let ClarionMiND navigate you to your destination for a stress-free driving experience.

Google Maps provides extensive local information.

Send from Google Maps to your device
Google
In addition to pre-installed POIs, use ClarionMiND to guide you to your selected destination using the information supplied by Google Maps. You can obtain your destination’s information using Send button on Google Maps, and then transfer that information to your ClarionMiND and navigate directly to its location. The simple operation and voice prompting will take you where you want to go. In addition, accessing information about your destination via the Internet lets you get details you need before you arrive.

Independent operating modes for portable and in-car use.

Portable and Dockable
As a portable device, ClarionMiND allows you to use it in the home or office, or when you are out and about. In your car, the navigation mode starts as soon as the unit is placed in the standard cradle or the optional Car Dock. The touch-screen makes operation easy, and you can use the split screen display to see and operate both the map and a quick information screen that shows other applications available while in the Car Mode. The Car Dock also provides a lifetime RDS-TMC subscription to help you navigate around traffic and save gas.

Some of ClarionMiND’s many convenient functions.

<Search>
• Internet Powered Search (Google Maps)
• Location Based Service
• Assisted destination entry with next valid city, city name, street, house number, coordinates

• 2D & 3D map view
• GPS positioning
• Advanced map matching

For more information, see the Clarion website at http://my.clarion.com
With its handy portability and powerful navigation system, ClarionMiND increases the fun you can have using the Internet. Take a long drive or a long hike and read up on the places you see along the way. Turn a walk into an opportunity to find interesting new attractions around your city. ClarionMiND is designed to be an intuitive HMI (Human Machine Interface). The graphics for the button size and layout, map design and menus are designed to provide excellent visibility to allow safe operation of the touchscreen.

Almost all functions, including navigation, are displayed by icons, allowing intuitive operation.

**Mobile Mode**
The icon layout can be switched between Slide View and Carousel View, and the arrangement order and categories can be changed as well. Enjoy faster access by grouping and displaying the icons of functions used most often.

The special Car Mode interface makes navigating with ClarionMiND while driving safe and easy.

**Car Mode**
The special Car Mode interface was designed for safety and comfort. Installing the standard cradle (included) and Car Dock (sold separately) allows the navigation to start up automatically and switch to a screen that restricts certain functions for increased safety while the vehicle is moving.

clarionMiND provides an intuitive HMI (Human Machine Interface). The graphics for the button size and layout, map design and menus are designed to provide excellent visibility to allow safe operation of the touchscreen.

A step beyond mobile devices: full browser.

**Browser**
Using the Firefox-based web browser, you can navigate the Web the same way you do on your PC. Find where you want to go, such as restaurants, concert venues and shops by checking the information on the Internet.

Enjoy YouTube and MySpace via the unique interface.

**YouTube**
The YouTube icon on the Home Screen gives you one-touch access to one of the world’s most popular video communities — you don’t need to activate the browser. Now you can enjoy videos wherever you are, and let friends who are with you join in the fun. The easy to view and operate YouTube viewer displays thumbnails so you can use buttons like Featured, Most Viewed, Related and Most Discussed videos, to quickly view the videos you want to see.

Use the MySpace icon to go directly to this popular social networking website with over 100 million members. The easy to operate MySpace browser has enhanced viewer functions to make MySpace even more fun to use than with a PC. What’s more, you can receive e-mail from friends or display blog update messages in either Car Mode or Mobile Mode, so staying connected with friends is easier than ever.

**MySpace**
When you are connected with friends is easier than ever. By activating MySpace browser has enhanced viewer functions to make ClarionMiND even more fun to use than with a PC. You can enjoy videos wherever you are, and let friends who are with you join in the fun. The easy to view and operate YouTube viewer displays thumbnails so you can use buttons like Featured, Most Viewed, Related and Most Discussed videos, to quickly view the videos you want to see.
